PUSH AND PROGRESS

A Big Wholesale and Retail Jewelry House in Prospective.

NEW FOUNDRY & MACHINE SHOPS.

Chief Ottinger's Retarn - What Our Fire De partment Needs-The Real Estate Market Booming.

14 is learned from reliable sources that ome of the store cooms in the Progress building has been leased to an eastern firm which will open a new wholesale and retail jewelry establishment on a mammoth scale to cellpse anything in the city for grandeur and cellpse anything in the city for grandeur and elegance. The stock to be carried will be very large and first class in every particular. It is a noticeable fact that the erection of large and handsome business blocks brings first class business places by them.

See to occupy them. one of the store rooms in the Progress building has been leased to an eastern firm pen to occupy them.

The Machine Industry.

within a fortnight. The main structure is ern convenie 240 feet deep by 40 feet wide and will con-tain, the machine shop, blacksmith shop 340 feet deep by 40 feet wide and will contain the machine shop, blacksmith shop and foundry. Adjoining this on the west is a boiler room, 17x30 feet, and still farther to the west is a pattern room of two styries, which will be completed in a few days. The foundation for an effice building 16x30 feet has been had nour the street and will be completed within two weeks. New machinery is constantly arriving and being placed in position. The new suffice, a 35-horse power Jurior Westinghouse, was tested yesterday and some of the new machinery given a trial. This morning the machine shops will be started and a force of workmen will be put on. The old foundry on Second South street will continue in operation for two weeks yet, during which time the machinery will be moved piace by piece and placed in position in the new building, thus making it possible to continue operations while the change is being made. The foundry and pattern shop will be the last departments to be removed. One half of the tools will be new and the capacity of the shop and foundry will be doubled. Mr. A. M. Grant is quite hopeful for the future and says that when they get settled in their new quartors they will have the largest and most thoroughly equipped establishment of the kind between Denver and the coast.

Our Fire Department

Chief Ottinger returned yesterday from a months' tour of the principal eastern cities. He says that during his trip he made it a special point to risit and inspect the Brodepartments in the different cities. the fire departments in the different cities. The result of his investigation is that Sait Lake has as rapid and well equipped a fire department as he has seen in all his travels, and when the new fire alarm system is put in operation, they can respond as quickly as any other company. The only further accessary improvement, he says, is the building of a new fireman's half of a more medern and convenient design. None of the eastern eities which he visited have so poer accommodations for their firement, all of them spuring no expense on their fire department. In Sait Lake city there are less fire according to population than in any of the castern cities, and the expense is much less, being only about thirty sevencents per capita, while in New York and other places it runs up to \$5.

THE REAL ESTATE TRANSFERS.

The Sales Continue at a Lively Rate-Rusiness Farrly Beoming.

NOTES OF THE FAIR.

Interesting Bits About the Busy Board and Their Assistants.

Col John R. Winder, whose illness has confined him to his residence for the past several weeks, attended the meeting of the directors of the Deseret Agricultural and Manufacturing society last evening and occupied the presiding chair. The other members present, Messrs. Webber, Empey Thomas, Armstrong, Rowe, Parker and Smith were so heartily rejoiced to see him at his post again that after the session they arranged some impromptur erreschments and united in drinking his health and pros-

atranged some imprompts refreshments and united in drinking his health and prosperity.

Ben R. Eidredge, Esq., is doing good sorvice in the cattle and horse departments as assistant to Messrs. Armstrong and Parker. He will remain at the fairgrounds the whole of next week to assist the board and then goes east to take in some of the other great fairs of the country. Mr. T. B. Barker was appeinted a member of the awarding committee on type writing contest. It is understood the remaining announcements of rules to govern the contest will be made in the morning.

Prof. Marcus C. Jones, at the suggestion of Governor Thomas, was appointed assistant supervisor of fruits and fovers.

Mr. John Reading, who for more than flicen years was an active and realous worker on the board of directors, profilered yesterday to decorate the centre pyramid in the building with flowers from his nursery. The offer was accepted with alacrity and a rousing vote of thanks.

Mr. Charles Read, supervisor of the mineral exhibit, was called to Nevada the other day on business, but is expected to return in time to latend to this important department.

The interior decorating is in the hands of
